

POWER HUNGRY?

RHINO 38999 CONNECTOR

FROM AMPHENOL PCD

Reliable Connection Under High Vibration

- High current & voltage applications in harsh environment conditions
- IP68 sealing in mated and unmated condition
- Anti-decoupling ratchet mechanism
- Superior EMC performance and RoHS compliant Black Zinc Nickel plating
- Reliable connection even under high vibration

FEATURES

- Hyperbolic Radsok contact design for up to 1000A
- IP2X insulated contacts for touch safety
- Safe mating keyway engagement prior to contact connection
- MIL-DTL-38999 series III design features
- MIL-DTL-38999 panel cut-outs
- Also available in other finishes, Stainless Steel and Aluminium Bronze
- Lowest profile 90 degree plug in the industry
- Multiple key orientations

APPLICATIONS

- Ground Vehicles
- Turret Systems
- Power Distribution
- Motor Systems
- Battery Systems
- EVTOL
