

# IN-FLIGHT ENTERTAINMENT SOLUTIONS

Amphenol **PCD**

Technology in consumer electronics leading customer demand in the sky.

## Wireless Charging

Powerful, lighter weight devices with fewer cables and ports for a wireless charging experience.

## Bluetooth LE Audio

Connect to an unlimited number of devices using less power with LE-Audio.

## Higher Power SmartPIM

Complementary to the new USB-C module, redesigned internal electronics allow for high powered SmartPIM products.

## Circular MagJack

360° rotating Circular MagJack for continuous connection at any angle. Pins are installed on the jack side and pull up through the surface to mate with the magnetic connector on headphones.
